# BE PREPARED FOR THE MAN OVER BOARD (MOB) BY SOS MARINE

RESCUE BOAT SEA SCOOPA

## BE PREPARED WITH AN INVESTMENT IN VITAL MOB EQUIPMENT

SOS Marine has utilised their patented technology to 'raise the bar' and create new MOB (Man Over Board) rescue equipment. The new designs have more advantages for both the person overboard and Search & Rescue Operations.

Benchmarked for quality and performance. [www.sosmarine.com](http://www.sosmarine.com)

Just throw it into the water...

and it will automatically activate!

SOS DAN BUOY

# GME

## INNOVATIVE ELECTRONICS

The new GME MT406G EPIRB with integrated GPS receiver provides the last piece ...

# Be found fast!

Search and Rescue authorities will have your GPS co-ordinates accurate to less than 100m within minutes, which means you get rescued quicker.

Don't take the risk, take the newest technology. GME providing affordable safety.

- 16 channel Quadrifilar Helix GPS Receiver
- High intensity strobe light
- Australian design and manufacture
- COSPAS-SARSAT worldwide operation

# I N I G H T visionary

Thermal night vision cameras make navigation safer with clear video that helps you to see and avoid hazards during daylight hours and, more especially, at night. They can help you to find a person in the water faster than any other night vision technology and are used by Coast Guards, Police Agencies and Search and Rescue teams around the world.

## RAYMARINE THERMAL IMAGING CAMERAS

- Safer navigation
- Life-saving potential in man-overboard situations
- Enhanced visibility and situational awareness at night
- Easy docking in low light
- Boat security and surveillance
- Touch screen operation with E Series HybridTouch™
