

NSW Premier's Flood Emergency Citation

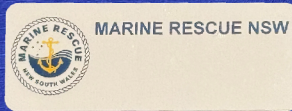

The citation is worn on the **right breast**, centred 5 millimetres above the name tag, which is positioned 3 millimetres above the right pocket.

If you have multiple pins and citations, such as the Marine Rescue 5-year Service Pin, or the NSW Premier's Bushfire Emergency Citation, the order of wear is below.

Where multiple pins or citations are worn, they are aligned in a single straight row above the name badge, touching edge to edge. Professional mounting is recommended.
